Section #2 Pavement Schedule

The barrels are down and new pavement is ready for all in Section #1 to enjoy. Many thanks for everyone's help and cooperation during the past 10 days. Now it's time for Section #2 folks to play musical chairs with their cars while Sumark and the end of Galen is resurfaced.

Paving Work is scheduled to start this coming Monday, July 28th (weather permitting). **Section #2** includes both buildings on **Sumark (437, 439, 441, 443, 445, 447, 449, 451, 453, 455, 457, 459 and 555, 556, 557, 558, 559, 560, 561, 562, 564 on Galen Circle**. If the weather cooperates paving **should be finished on Wednesday, July 30th**.

If your home is listed above, and you will be in town from the 27- 30th and will need your vehicle(s) it/they will need to be parked out of the Section #2 work area for that period starting at 7:00 am on the 28th.

If you are a Section #1 survivor, we'd like to ask you to let one of the Board members or a neighbor know if you will have available space in your driveway that could be used by one of your displaced neighbors.

EVERYONE MUST NOT park in visitor areas on Galen or Sumark during the day 7:00am-6:00pm on the 29th and 30th, as the streets must be kept clear for the contractor's trucks and equipment. Section #1 residents will have access to their drives and garages all during the work but may experience delays due to contractor's traffic. You will have to enter and leave Galen, at the Club house end. Keeping the fire lanes open is critical for our safety sake as well as to allow space for the big trucks navigating our narrow streets.

Where will Section #2 residents Park ?: a) In an available Section #1 friendly resident's drive. b) In the Oakbrook Villas. They know of our work so on-street parking on Sumark (east of Collin), Ryan, and Collin is possible. Their streets are wider, hence street parking isn't restricted like Condo streets. due to our need to maintain fire lanes. or c) We have also received permission from the Management of **Cranbrook Village Shopping Center** to permit day and overnight parking, **IF we park in the Office Depot lot and place a visible note/sign on our dashboards with the words : 'Oakbrook Condo Association' so their night security will not have vehicles towed.**

Thanks again for your understanding. Your cooperation has helped made the project proceed with minimal pain and even Michigan weather has also been cooperating.
